Will Show Bulk Updater

If you have entries to check in, but no additional information is required at check in (ending weight, etc.), you can quickly mark many entries as “Will Show” at one time as an alternative to the check-in process.

1. Click on the Show menu, and then the Will Show Bulk Updater tab.
2. Select a division or class for entries to be updated.

Will Show Bulk Updater

This feature allows you to update the **will show** property in bulk for all the Entries in a Division or Lot.

Select a Division or Lot to continue.

Fair	Department	Division	Lot
2015 Horse Show	Horse	Equitation	EQH 2000: Beginner Stock Seat Equitation Broken
		Games	EQH 2001: Beginner Pony Stock Seat Equitation
		Performance	EQH 2002: Junior Stock Seat Equitation Broken
		Showmanship	EQH 2003: Junior Pony Stock Seat Equitation

Total Entries: 240
"Will Show" Entries: 0

Select Division/Lot

3. All entries in the division/class will be listed, along with the entry number and the animal identifier, if it's an animal division or class.
4. Select specific entries, or use the Select All (or De-select All) buttons at the bottom of the screen.
5. When the correct entries are selected (checkbox), click the “Mark Selected as Will Show”.

Note: The red “will not show” button is to be used as an undo or quick status update when the entry was originally marked as “will show”. Only the records that are selected (checked) will change. Using the “will not show” button **does not** change the status of the un-selected records to “will show”.

6. If you mark some in error, or if the entry status changes from “Will Show”, you can select them and change them to “Will Not Show” using the red button.
7. If you have used the “regular” check-in process, and entries are removed from the show after being checked in, you can use the red button to change their show status, or you can go back to the entry (on the Entries menu) and change the show status there.
