

Jack Worthington

Larimer County

Serving Animals and Community

Inducted 2014

Jack Worthington was a member of the Pleasant View 4-H club in Larimer County. He showed sheep and beef and was also a member of the livestock judging team. Jack grew up in a rural agricultural environment and 4-H provided him with an avenue for community involvement. He was described by his fellow 4-H members as ‘the most tender-hearted person we know’.

Jack’s 4-H experience led him down his chosen career path as a veterinarian. The skills and interests that Jack developed as a 4-H member guided his success as a veterinarian, entrepreneur, and community service minded citizen. Under his leadership the Worthington Animal Clinic has grown significantly and was recently voted best veterinary hospital in the *Loveland Connection*. Jack is still involved in 4-H, volunteering as a Veterinary Science Judge at the Larimer County 4-H Fair.

Dr. Worthington’s mission statement of his veterinary clinic exemplifies the four H’s: Head, Heart, Hands, and Health:

At Worthington Animal Clinic, we are present in the moments that matter most—the moments in which patient and client lives are forever changed by caregivers. More than ever, the people of Worthington Animal Clinic are working together to enhance and extend the lives of every pet.
