

## WRLF 2008 Committee Status Report

Report date: April 19, 2007

Committee: Workshop

Prepared by: Donna R. Gillespie

Summary of tasks completed since last report:

I have received three workshop proposals which is a little frightening but I have also talked to several individuals that are saying they will send in proposals, so no panic yet. One from Texas (Tandy), one from Montana and one from Washington so at least we are spread out over the region. I have also received inquiries from California about registering so that's good. By the end of the month I will have an e-mail out to everyone who presented in Utah and Arizona as well as presenters from at least the last two state Forums. As soon as Katie gets a few more 4-H record books out Jeni promised I could have her back and that is our #1 priority. My May is pretty much dedicated to this cause, (well that and Sarah getting home from London and Brian's graduation!).

Tasks yet to be completed:

I will be contacting my committee again next week and asking them to really start shaking the bushes. We have all attended workshops we really liked so everyone should be contacting those individuals who taught them. Several have asked about contacting someone about a workshop, please don't ask just send them the stuff and encourage them to get it in (or I will make the contact if I have the information). Our committee would be more than happy to have too many proposals! I also received the room layout for the hotel from Chris and as we get closer we will start looking at numbers of workshops, etc.

Open issues/concerns:

Not a concern but just so everyone knows, I think hunting up workshops is really part of everyone's job. Our Forum will be only as good as the workshops.

Budget status: Current budget balance

Submitted expenses

Request for increased budget

Justification:
